DETAILED ACTION

1. This is a response to the amendment and IDS, filed 6/8/04.
2. Claims 1-10,16-20 are pending. Claims 11-15 were canceled and new claims 16-20 were added.
3. In response to the amendment to the abstract, the prior objection to the abstract is withdrawn.

Response to Amendment

4. Applicant has amended claims the claims to include new limitations. Applicant also argues that the prior art of record does not teach the newly amended claims. More specifically, Applicant argues that the prior art of record does not teach nor suggest storing a first instance of data in an area of a block of erasable nonvolatile memory and store a second instance of the data in another area within the same block without having to erase the first instance. That is, the instance of data can be changed without having to perform an erase operation, where the multiple instances of data are processed within the same block. The Examiner concurs with Applicant's arguments. The pending claims are allowed for the above reasons.

Allowable Subject Matter

5. Claims 1-10,16-20 are allowed.
6. Independent claims 1,5,19,20 are allowed for reasons indicated above.
7. Dependent claims 2-4,6-10,16-18 are also allowable for incorporating the limitations of the parent claim, and further limitations.
